ACI CONCRETE STRENGTH TESTING TECHNICIAN

Certification Program: ACI Laboratory Technician Certification Program
Certification Level: Concrete Strength Testing Technician

Concrete Strength Testing Technician is an individual who has demonstrated the knowledge and ability to properly perform, record, and report the results of four basic ASTM laboratory procedures related to the determination of concrete compressive and flexural strength.

C617 – Capping Cylindrical Concrete Specimens
C1231 – Unbonded Caps for Concrete Cylinders
C39 – Compressive Strength of Cylindrical Concrete Specimens
C78 – Flexural Strength of concrete

PAYMENT DEADLINE: Registration form and payment must be received at least two weeks prior to examination date.

CANCELLATIONS OR SUBSTITUTIONS must be made two weeks prior to review class in order to receive a complete refund. Substitutions may be made upon request and approval.

POSTPONEMENTS must be made two weeks prior to exam date. One will be allowed to re-schedule once for next session at no additional cost. Any postponements after the deadline will incur a fee of \$100 per occurrence.

DISABILITY NOTICE: If you have a disability and need assistance to participate in the performance examination, please contact ACI at least two weeks prior to the scheduled test date.

PLEASE BRING: A calculator, paper, and pencil. During the practice session, written and performance exams, the following shall be considered the minimum safety equipment required: Hard hat, high visibility clothing or vest, sleeved shirt, long pants, safety boots (steel or composite toe), safety glasses and hearing protection devices if needed.

If you are missing any part of the minimum safety equipment you will be asked to leave the testing facility and not be able to sit for the exam.

ACI awards certification upon successful completion of the requirements according to their website at www.concrete.org. Certification is valid for 5 years from the initial exam date.
